

CONGRATULATIONS ON YOUR NEW RUG!

Oversized rugs are folded and rolled into a box to make home delivery possible. Any creasing in the pile will disappear with time, but use these instructions to speed the process.

HOW TO RELEASE CREASES ON FOLDED RUG

1

Unfold rug and lay completely flat, pile side down.

2

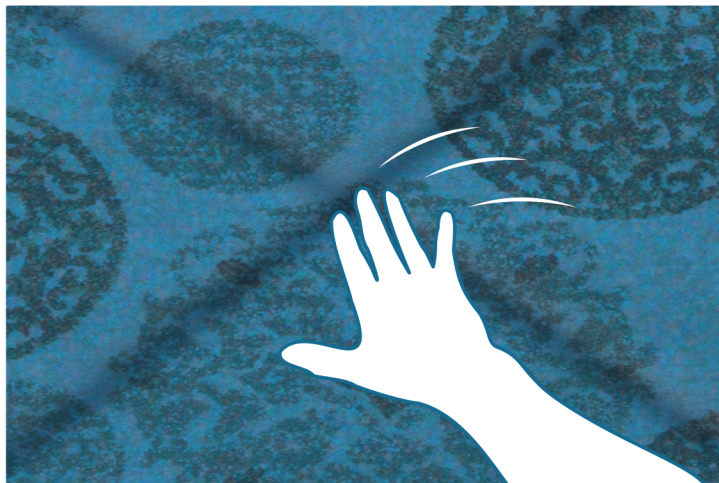

Roll rug with pile out and let it rest for 24 hours.

3

Unroll and brush pile with hands or firm broom to blend yarn in the folded area.

4

In a few days or less, folds will disappear as pile and backing yarns “relax.”

Brush the creases in the pile with sweeping motion.
